LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

Artificial Intelligence Winston Patrick Henry

This book is one of the oldest and most popular introductions to artificial intelligence. An accomplished artificial intelligence (AI) scientist, Winston heads MIT's Artificial Intelligence Laboratory, and his hands-on AI research experience lends authority to what he writes. Winston provides detailed pseudo-code for most of the algorithms discussed, so you will be able to implement and test

Patrick Henry Winston - MIT CSAIL

Patrick H. Winston was a brilliant man and a very nice person. He was my student advisor at MIT and agreed to serve on the advisory board of a startup company I founded. I had the privilege of meeting him again at his lab a few years back. He was still doing leading edge research and had tremendous enthusiasm for his work and his students.
