Best Practice Number One The first thing you should do to become the best HVAC contractor is to develop a strategy for your service department. Even though many contractors treat their service department as a catchall of sorts, your service department should be treated as a distinct, well-defined part of your business.

Whether you're planning to purchase new equipment, or you need to upgrade the existing duct system, make sure your HVAC contractor follows these ductwork design best practices. Correct Placement Whenever possible, ducting should be placed inside the home's conditioned envelope in walls, ceilings or floors to avoid exposure to extreme temperatures that erode energy efficiency.
