This is a bellow assembly, also known as a door boot gasket kit, and it is designed for use with front load washers. This gasket acts as the main seal between the door of the washing machine and the wash tub. This seal might wear out over time, or it might be damaged, resulting in water leaking from around the door during the wash cycle.

The door latch secures the washer door shut during operation. Once the washer door is closed, the washer can begin operating. If the washer door is not latched shut, the door switch will prevent the washer from operating. If the door latch is defective, the washer will not spin or start. The door latch can fail either mechanically or electrically.
