ManyBooks is one of the best resources on the web for free books in a variety of download formats. There are hundreds of books available here, in all sorts of interesting genres, and all of them are completely free. One of the best features of this site is that not all of the books listed here are classic or creative commons books. ManyBooks is in transition at the time of this writing. A beta test version of the site is available that features a serviceable search capability. Readers can also find books by browsing genres, popular selections, author, and editor's choice. Plus, ManyBooks has put together collections of books that are an interesting way to explore topics in a more organized way.

Cima Pre Seen Analysis

The pre-seen material is background information about the fictitious organisation that will feature in the Case Study exam. The pre-seen begins to tell you the story of the organisation, the context in which it operates, markets, competitors and so on. It will form the basis of the tasks that a candidate can expect during the exams.
