While the Honda manual calls for using three manufacturer specific tools, the Clymer repair manual clearly lays out how to set the swing arm in a press and make due with a piece of pipe. Of course, there are going to be times when the only option is an OEM tool, and in those cases, Clymer conveniently includes the part numbers.

I really like that the beginning of the manual is dedicated to troubleshooting which, let's face it, is why most people will buy this book. This book is designed for the backyard mechanic in mind which, in my case, was just what I needed.

Re: Manuals, Factory vs. Clymer vs. Seloc bubbakat, Thanks for the info and the link, I read a lot there and it seems a small majority suggest the factory Mercury manual over both Seloc and Clymer, so I will try to get to their website and order (any one else's opinions appreciated still). This is an awesome site!

This manual came to me packaged very well, still in original undamaged uncut cellophane. The illustrations, pictures, and tables within this manual are as good as you could ask for in a service manual. I own a 1999 Honda TRX300FW and have already consulted this book several times in the repair process of this ATV. WELL WORTH THE MONEY!

I'll admit, I was initially skeptical of using a manual produced by anyone other than Honda, especially at a hundred dollars less.
