Architectural Design Process | Step by Step Process | BP ...

THE DESIGN PROCESS CONSISTS OF 6 STEPS: 1. Define the Problem. You can't find a solution until you have a clear idea of what the problem is. 2. Collect Information. Collect sketches, take photographs and gather data to start giving you inspiration. 3. Brainstorm and Analyze Ideas. Begin to sketch, ...

DiscoverDesign Handbook | DiscoverDesign

In each class of approaches, a business process architecture is designed by first designing another structure, e.g. a goal structure. Such a structure should be designed in terms of the concepts and the relations prescribed by the respective approach. A business process architecture is subsequently designed based on that structure.

Business Process Architecture - CIO Wiki

Conceptual brainstorming and exploration define this portion of the design process. The architect creates the initial design of building systems, but then expands the approved schematic design studies to develop a more detailed drawing illustrating other aspects of the proposed design, sometimes with help of consulting engineers.
