Refrigerated Dryers | Parker NA

compressed air systems are water, oil, and solids. Water vapor is present in all compressed air and it becomes greatly concentrated by the compression process. While air dryer systems can be used effectively to remove water from compressed air, they will not remove oil, which is the second major liquid contaminant.

DRD Series - Filtramax

Y Pre-filter element (for 3 micron filtration or better) must Operating space Leave a space of 1.5 m around the unit. Leave a space of 2 m above dryer models with vertical condensation air expulsion. 3.3 Versions Air-cooled version (Ac) Do not create cooling air recirculation situations.
