When your non-verbal communication does NOT match your verbal communication, then you're sending (at best) a conflicting message.. So, here's the real takeaway: Non-verbal communication is behavior.If these non-verbal behaviors (facial expressions, voice tone, gestures, etc...) don't match your spoken words, then you are sending mixed messages by default.

## **4 Ways to Empower Yourself with Non-Verbal Communication**

Verbal vs. Non-Verbal Communication We communicate with much more than words: when we interact with someone, our body has a language of its own. The way we sit, the gestures we make, the way we talk, how much eye contact we make – all of these are non-verbal ways of communicating that impact the messages our words are sending.
