Ending Aging The Rejuvenation Breakthroughs

I just finished reading Dr. Aubrey de Grey's Ending Aging: The Rejuvenation Breakthroughs that Could Reverse Human Aging in Our Lifetime (2007), it was an accessible introduction to the biology of aging, and a way that it might be defeated. By default, I am skeptical about anti-aging techniques or claims of some sort of fountain of youth.

Of no concern to de Grey, writing alongside Michael Rae in Ending Aging: The Rejuvenation Breakthroughs that Could Reverse Human Aging in Our Lifetime, he argues that his field is "inhibited by the deeply ingrained belief that aging was 'natural' and 'inevitable,' biogerontologists had set themselves apart from the rest of the biomedical community by allowing themselves to be overawed by the complexity of the phenomenon that they were observing." Not without some justification ...

The Millions: Ending Aging: The Rejuvenation Breakthroughs ...

Ending Aging: The Rejuvenation Breakthroughs that Could Reverse Human Aging in Our Lifetime is a 2007 book written by Aubrey de Grey, a biomedical gerontologist, with his research assistant Michael Rae. Ending Aging describes de Grey's proposal for eliminating aging as a cause of debilitation and death in humans, and restoring the body to an indefinitely youthful state, a project plan that he calls the "Strategies for Engineered Negligible Senescence", or "SENS".

Indeed it has provided a consistent focus for decades of scientific research on aging. But it is only in the last ten years that the replacement of palliative treatments (which suppress the symptoms of age-related diseases) with genuine anti-degenerative medicines (which prevent and repair) has become more than a pipe dream.
