Geometric Dimensioning and Tolerancing

- Geometry tolerancing is necessary to control specific geometric form and location.
- Major features of the part should be used to establish the basic coordinate system, but are not necessary defined as datum.

Dimensioning And

Tolerancing

Introduction. 1.

Conventions make the drawing simple and easy to draw. But it is difficult for untrained eyes to understand it easily. Drafting time should be reduced to cut drafting cost. Time must be saved in drafting. It will take a lot of time to draw the actual shape, hence, some conventions are
