In this book - a deliberate mixture of economics, history, geography and political philosophy - I make six key claims:

- First, economic progress that reaches beyond borders is not, in any way, an inescapable truth. Globalization can all too easily go into reverse.
- Second, technology can both enable globalization and destroy it.

Globalization has had its impacts on world cross-border flows e.g. flow of capital. There has been an increase in international economic activity which has expanded world trade and general capital flow. Goods are flowing across national borders easily through reduced trade barriers and new transportation methods.

Globalization : the return of borders to a borderless ...

Under the influence of globalization, the social, cultural, and economic borders of nation-states were expected to dissolve and create a complex web of interdependence based on the supply chain. The pandemic has exposed the unavoidable adverse effect of over-dependence on a single nation to feed a global supply chain.
