History Of Economic Thought A

The most important development in economic thought during the Great Depression was the Keynesian revolution, including the publication in 1936 of *The General Theory of Employment, Interest, and Money* by John Maynard Keynes. (See the discussion of Keynesianism below.) Subsequently, a more orthodox body of thought took root, reacting against the lucid debating style of Keynes, and remathematizing the profession.

History of economic thought - Wikipedia

Lionel Robbins's now famous lectures on the history of economic thought comprise one of the greatest accounts since World War II of the evolution of economic ideas. This volume represents the first time those lectures have been published. Lord Robbins (1898-1984) was a remarkably accomplished thinker, writer, and public figure.
