A brand new approach developed from animal studies now applied in humans. Locomotor Training. Principles and Practice. Susan Harkema, PhD, Andrea Behrman, PhD, PT, and Hugues Barbeau, PhD. Description. Physical rehabilitation for walking recovery after spinal cord injury is undergoing a paradigm shift. Therapy historically has focused on compensation for sensorimotor deficits after SCI using wheelchairs and bracing to achieve mobility.

## **Locomotor Training - Susan Harkema, PhD; Andrea Behrman ...**

This chapter reviews physical rehabilitation for posture, standing, and walking from an historical perspective, and provides a context for the emergence of locomotor training as an activity-based therapy after spinal cord injury (SCI) and stroke by implementing evidence-based practice. The chapter is not intended to be a comprehensive review of the functional consequences after injury or ...
