How To Set A Custom White Balance On Sony Alpha Cameras (And Why)

In my previous article on using a custom calibration for the Sony A6000 in Lightroom, I mentioned that it can also be helpful to tweak the in-camera white balance defaults. A few people have asked me what I mean by this, so I've decided to do a very short tutorial on how to do it (it's not very complicated.)

How to Adjust the Default White Balance on the Sony A6000 ...

If that is the case, and neither the camera nor the flash provide a means to stop this overriding of the camera white balance setting, then I see two choices: use a manual-only flash or tape over the pin or pins of the ttl flash that are causing the override of the white balance setting.
