complex systems from
a sociological
perspective. It was the
first to "propose a

framework for
characterizing complex
technological systems
such as air traffic,
marine traffic,
chemical plants, dams,
and especially nuclear
power plants according
to their riskiness".

Perrow argues that
multiple and
unexpected failures are
built into society's

Normal Accidents
analyzes the social side
of technological risk.
Charles Perrow argues
that the conventional
engineering approach
to ensuring
safety--building in
more warnings and
safeguards--fails
because systems
complexity makes
failures inevitable.
