biochemistry, function or use of various classes of naturally occurring substances ranging from small molecules to biopolymers.

## **Progress in the Chemistry of Organic Natural Products**

Within the field of organic chemistry, the definition of natural products is usually

# Read Online Organic Chemistry Of Natural Products Gurdeep Chatwal

restricted to mean purified organic compounds isolated from natural sources that are produced by the pathways of primary or secondary metabolism. Within the field of medicinal chemistry, the definition is often further restricted to secondary metabolites.

**Natural product - Wikipedia**

# Read Online Organic Chemistry Of Natural Products Gurdeep Chatwal

Natural products, especially within the field of organic chemistry, are often defined as primary and secondary metabolites. A more restrictive definition limiting natural products to secondary metabolites is commonly used within the fields of medicinal chemistry and pharmacognosy, the study and use of natural products in medicine.
