Ourselves Unborn: An Embryologists Essay on Man (1943) Anatomist at Large (1958), his first autobiography; George Hoyt Whipple and his friends : the life-story of a Nobel prize pathologist (1963) A History of the Rockefeller Institute 1901-1953: Origins and Growth (1964) The Seven Ages of a Medical Scientist (autobiography) (published 1982)

George W. Corner - Wikipedia

Sharing its title with a 1944 essay by embryologist Dr. George Washington Corner, Ourselves Unborn has the slow, dreadful pace of a dissertation, perhaps because that's how it appeared in its own fetal state while the author earned her Ph.D. at Rutgers.

Our Babies, Ourselves by Mary Rose Somarriba | Articles ...

The Case Against Abortion-- WHY ABORTION IS WRONG --Medical Testimony: A new human being comes into existence during the process of fertilization. Prenatal Development: Growth in the womb is a rapid process; all systems are in place by week eight. Rights of Personhood: It is unjust and inaccurate to classify certain human beings as "non-persons."

The Case Against Abortion: Medical Testimony

- Here is the main difference why this doesn't say abortion is wrong. So long as the fetus is UNBORN, its preservation, contrary to the wishes of the pregnant woman, violated her right to freedom, happiness, and self-determination. Her rights override the rights of those who would like the fetus preserves.
