evaluation research,

Poverty research and the social sciences

Poverty is a social condition that is characterized by the lack of resources necessary for basic survival or necessary to meet a certain minimum level of living standards expected for the place where one lives. The income level that determines poverty is different from place to place, so social scientists believe that it is best defined by conditions of existence, like lack of access to food ...

Poverty: Definition in Sociology and Types

This book is an intimately detailed and coherent story of poverty knowledge, and is a must-read for anyone interested in poverty and its relationship to the world of social science. O'Connor is an insider in the field of policy making, having worked at the Ford Foundation for many years prior to her research as a historian.
