Principle Of Weaving By Marks And Robinson

The weaving process Woven cloth is normally much longer in one direction than the other. The lengthwise threads are called the warp, and the other threads, which are combined with the warp and lie widthwise, are called the weft (synonyms are “filling,” “woof,” and “shoot,” or “shute”).

Textile - The weaving process | Britannica

Weaving is an undesirable situation where traffic veering right and left must cross paths within a limited distance, to merge with traffic on the through lane.. The German Autobahn system has Autobahn-to-Autobahn interchanges of two types: a four-way interchange, the Autobahnkreuz (AK), where two motorways cross; and a three-way interchange, the Autobahndreieck (AD), where two motorways merge.
