Glycol Solution

For Humidifiers

Propylene glycol is a chemical that's hygroscopic to 70 percent relative humidity, a complicated way of saying once the relative humidity in your cigar humidor reaches 70 percent, the propylene glycol solution stops releasing moisture, so there's no risk of over saturation.

Choosing the Right Cigar Humidifier for

New Air
For Humidors

Distilled water and propylene glycol (also called 50/50 solution) are best for your humidor because they are free of the harmful bacteria and impurities that create mold. You can pick up a gallon of distilled water at the supermarket or convenience store for around a dollar or two.
