Its unique coverage describes how investors actually behave, the reasons and causes of that behavior, why the behavior hurts their wealth, and what they can do about it. Chapter topics include overconfidence, fear of regret and seeking pride, considering the past, mental accounting, forming portfolios, representativeness and familiarity, social interaction and investing, mood and inve

Psychology of Investing by John R. Nofsinger

Good investing, good behavioral investing is about playing the probabilities. It's like playing cards. You tilt probability in your favor at every turn and you never make an outsize bet that can ruin you.

The Psychology of Investing | Art of Manliness Podcast

In its most basic form, investing involves allocating money with the expectation of some benefit, or return, in the future that compensates us for the risk taken by investing in the first place. Investing is a decision: buy or sell, stock A or stock B, equities or bonds, invest now or later.

Psychology of Investing | Merriman

Every experienced trader agrees that psychology is a critical factor in successful trading. But I'd go even further.... I believe psychology is the only thing that matters in trading. Ironically, this is not a lesson professors would have ever taught you at Harvard, Stanford or Wharton Business School.
