Bucailleism is a movement to relate modern science with religion, and especially that of Islam. Since the publishing of The Bible, the Quran and Science, Bucailleists have promoted the idea that the Quran is of divine origin, arguing that it contains scientifically correct facts. According to The Wall Street Journal, Bucailleism is "in some ways the Muslim counterpart to Christian creationism" and although "while creationism rejects much of modern science, Bucailleism embraces it."

By showing that the Quran co-relates with modern science, whereas, the Bible often does not and is self contradictory, one can put to rest propaganda of the Christian apologists! However, it needs to be understood that the Holy Quran is a book of 'religion' and not a 'book of science' and Bucaille's book is a book of 'metaphysics' and not of science.
