Water Boat Accidents It isn't just the deep, cold waters in the middle of Lake Cumberland, Lake Barkely, or another Kentucky river or lake that can be dangerous. Shallow waters can also present significant risks of boat accidents and deaths. Just last month a recreational boat ran aground in shallow water in Texas.

Shallow water blackouts occur to swimmers who hold their breath or overextend themselves in shallow water conditions. As you hold your breath in water, oxygen is metabolized, and carbon dioxide levels increase. If you swim for an extended period, your body may become starved of oxygen.
