Software, computers, games, and devices require user manuals, guides that explain how to use the product (and how not to). A user manual is a formal writing piece with a specific structure, and should be written by someone who is intimately familiar with the product such as a technical writer or the product designer.

How to Create a User Manual (with Pictures) - wikiHow

The News: A User's Manual. The news is everywhere, we can't stop checking it constantly on our screens, but what is it doing to our minds? The news occupies the same dominant position in modern society as religion once did, asserts Alain de Botton - but we don't begin to understand its impact on us.
