Featuring two dozen highly credentialed scientists, philosophers, and theologians from Europe and North America, this volume contests this proposal, documenting evidential, logical, and theological problems with theistic evolution - making it the most comprehensive critique of theistic evolution yet produced.

Read Book Theistic Evolution A Scientific Philosophical And Theological Critique

Theistic Evolution: A Scientific, Philosophical, and ...

“Repeating the error of medieval Christianity, theistic evolution absolutizes the words of finite, fallible humans and relativizes the Word of an infinite, infallible God. As this tremendous and timely collection thoroughly demonstrates, scientific stagnation, circular philosophy, and heterodox theology are the inevitable results.

Theistic Evolution | Reformed Theological Seminary

Yet the scientific and theistic evolutionist literature is full of arguments that God would not have done such-and-such, starting with a theological premise of how God would have done something (perfectly efficiently, for example, or uniquely for each species) and then showing that the data show otherwise (See, e.g. C. G. Hunter, Darwin’s God [Grand Rapids: Brazos, 2001]).

Theistic Evolution: A Scientific, Philosophical and ...

Thorough critique of theistic evolution from primarily scientific standpoint. This is not exhaustive, but anyone who wants to have a thorough understanding of the scientific and philosophical gaps in theistic evolution should read this. Following the footnotes and bibliography shows extensive research and careful thinking about from all angles.

Theistic Evolution: A Scientific, Philosophical, and ...

In the book Theistic Evolution, we provide a comprehensive scientific, philosophical, and theological critique of the idea known as theistic evolution. But before we can do that, we will need to define what the proponents of this perspective mean by “theistic evolution” — or “evolutionary creationism,” as it is sometimes now called.

produce change in organisms (pg. 34).

Book Review: Theistic Evolution: A Scientific ...

Theistic Evolution relies on the assumption that Darwin was right. Without that, there is no Theistic Evolution. Conversely, Theistic Evolution could not be invalidated by any philosophical or theological analysis if Darwin were right. In addition, the science, philosophy and theology (religion) separation is imaginary as shown.

Theistic Evolution - NonLin

Theistic evolution, theistic evolutionism, evolutionary creationism, divine direction, or God-guided evolution are views that regard religious teachings about God as compatible with modern scientific understanding about biological evolution.
