When children know their times tables, mental arithmetic becomes easier. Practising times tables also helps children to understand number and number relationships, and to see patterns in numbers. These skills will help them to master key concepts and move quickly through more complex maths problems with confidence.

### Help with times tables: fun ideas, videos and quizzes ...

I see the games supporting times tables learning in at least three ways Firstly, they, too, force repetition of times tables facts. Obviously, in a far less structured way - and far more fun way! - than drills. Secondly, just by being fun, they let kid actually enjoy thinking about multiplication. Hopefully, the child will begin to associate times tables with more positive than negative feelings.
