Why A Public Anthropology

Public anthropology, according to Robert Borofsky, a professor at Hawaii Pacific University, "demonstrates the ability of anthropology and anthropologists to effectively address problems beyond the discipline—illuminating larger social issues of our times as well as encouraging broad, public conversations about them with the explicit goal of fostering social change" (Borofsky 2004).

Public anthropology - Wikipedia

By exposing the functions (and dysfunctions) of the academic system to public light, Why a Public Anthropology? hopes to draw the field to effectively address the critical problems that the wider world very much wants and funds it to address. ...more.

WHY A PUBLIC ANTHROPOLOGY

Let me offer a brief definition of public anthropology: Public anthropology focuses on the interface between anthropology as an academic discipline and the broader public that supports and, ideally, finds much value in it. This works as a definition you can recite to others.

Public Anthropology - Perspectives: An Open Introduction ...

Baann argues that public anthropology is, among other things, an important platform for debate and engagement. Didier Fassin is mindful of this question too, wondering aloud in his recent book "that we know very little about who [the public] is and how it has received or will use the ethnography [anthropologists produce]" (Fassin 2017: 7).

How "Public" Is Public Anthropology? - Public Anthropologist

Public anthropology identifies the most urgent problems of our world, then draws from a broad body of work to illuminate pathways to solutions. No public anthropologist can spend too much time in an ivory tower.

Additional Books - Center for a Public Anthropology

An Anthropology of Anthropology uses anthropological methods and insights to study the practice of anthropology as an academic discipline. It considers the contexts that shape the discipline, especially its beliefs, its publications, and the degree to which what it produces is of value to others. The book calls for a paradigm shift away from the publication treadmill—of assessing intellectual competence by how many books are produced in what period of time—toward a more profile-raising ...
